Dear Sir or Madam:

The Global Nuclear Fuel – Americas L.L.C. (GNF-A) facility in Wilmington, North Carolina hereby submits a license amendment request for Chapter 1 “General Information” and Chapter 5 “Nuclear Criticality Safety” of our approved SNM license renewal application (Reference 1).

As we discussed on July 24, 2019 (Reference 2), the requested changes to Chapter 1 and 5 have been internally reviewed and determined to be changes to license commitments requiring prior NRC approval in accordance with SNM 1097 Section 1.3.1.2 and 10 CFR 70.72. A description and reason for the change in each Chapter is provided in Attachment 1 to this letter to aid in the NRC Staff review.

Attachments 2 and 4 provide updates to Chapter 1, “General Information” and Chapter 5 “Nuclear Criticality Safety”. The revised sections are identified with a vertical line in the right hand margin on each revised page.

Please contact me on (910) 819-5950 if you have any questions or would like to discuss the request.

Sincerely,

Scott P. Murray, Manager
