Sacramento, CA 95814

IN RESPONSE REFER
TO FOIA-79-467

Dear Ms. Rutland:

This is in response to your letter of October 22, 1979 in which you requested, pursuant to the Freedom of Information Act, all documents compiled by the Mechanical Engineering Branch for IE Bulletins 78-12, 78-12A, 78-12B, a copy of the report prepared by Babcock and Wilcox on the possible presence and effects of atypical weld materials and all documents pertaining to possible atypical weld materials in the reactor pressure vessel at Rancho Seco Unit 1.

Enclosed are documents listed on Appendix A which are subject to your request. These documents represent the understanding of your request as expressed in a telephone conversation of November 1, 1979 between Mr. Don Fields of your office and Mr. Jacob H. Zamansky of my staff.

These documents are being supplied as a supplement to previous information which we supplied to you on August 22, 1979 in response to FOIA-79-184.

Sincerely,

John C. Carr, Acting Director
Division of Rules and Records
Office of Administration

Enclosures: As stated
