Docket Nos. 50-369, 50-370

Dear Mr. Denton:

Please find attached 10 copies of the Offsite Dose Calculation Manual (ODCM) for McGuire Nuclear Station. This document supplements the radiological effluent technical specifications submitted on July 25, 1979 and replaces the draft version of the ODCM submitted on January 25, 1979.

In regard to the Process Control Program, a description of this program is being prepared for Duke Power Company by Chem-Nuclear. This document should be available for submittal to the NRC in approximately three weeks.

Very truly yours,

William O. Parker, Jr.
