Meeting Summary:

Management Meeting on January 16, 1980 (Report No. 50-219/80-04)

Areas Discussed: Management meeting held at NRC request to discuss details related to the establishment of an on-site office for the purpose of placing an NRC resident inspector at the facility.

Results: All parties concurred on administrative and operational considerations needed to establish an on-site NRC resident inspector office.

DETAILS

1. Persons Contacted

On January 15, 1980, a meeting was held at the Oyster Creek Nuclear Power Station, Unit 1, to discuss details of establishing on-site facilities for a Resident Reactor Inspector office.

a. Licensee Personnel Present

J. Carroll, Station Manager
W. Garvey, Director Station Administration
D. Ross, Manager Nuclear Generating Station

b. NRC Personnel Present

L. Briggs, Reactor Inspector
J. McOscar, Chief, Administrative Branch

2. Areas Discussed

- a. Facilities to be provided for resident inspector.
- b. Office trailer siting (interim office arrangement).
- c. Provisions for telephone service including a plant telephone extension and the NRC dedicated phone line from the site to NRC Emergency Operations Center in Bethesda, Maryland.
- d. Interface responsibilities for communications equipment installation.
- e. Accessibility of NRC Resident Inspectors to members of the public.
- f. Resident inspection program.

Agreement was reached among all parties to these administrative and operational considerations.
