Dear Mr. Kennedy:

The U.S. Nuclear Regulatory Commission (NRC) is considering a request submitted by Honeywell International, Inc. to renew its NRC source materials license SUB-526 for a period of 40 years. As part of the review of the application, the NRC staff has prepared a final environmental assessment (EA) and finding of no significant impact regarding the proposed license renewal.

We are reaching out to the Metropolis Public Library to request your assistance in maintaining the enclosed EA at the library for public use. The EA can also be accessed electronically at <https://www.nrc.gov/docs/ML1927/ML19273A012.pdf>.

If you have any questions about the proposed licensing action or the environmental review process, please contact Ms. Christine Pineda, Project Manager for the EA, at (301) 415-6789 or via e-mail at Christine.Pineda@nrc.gov.

Sincerely,
