Dear Sir:

EXPORT LICENSE AND IMPORT LICENSE APPLICATIONS

Enclosed are a Form NRC-7 application for a license to export nuclear material to Canada and a letter application for a license to import (return) the same nuclear material to the U. S. upon completion of experimental work.

This will be a government-to-government shipment under Special Agreement B-68724-A-P between Pacific Northwest Laboratory (DOE contract DE-AC06-76RLO 1830) and Atomic Energy of Canada, Limited (AECL). The PNL program, LOCA Simulations in NRU, is sponsored by NRC, Division of Reactor Safety Research (Finance No. B-2277-9). Rockwell Hanford Operations (DOE contract DE-AC06-77RLO 1030) will act as the shipping agent for PNL.

Very truly yours,

O. J. Elgert, Director
Nuclear Fuel Cycle and
Production Division

NFCP:RER
