Information Required for NRC Review of Inservice
Inspection and Testing Program and Requests for Relief from
ASME Code Section XI Requirements

Attached you will find 40 copies of Revision Number 4 to our report entitled, "ASME Code Section XI Inservice Inspection and Testing Program and Information Required for NRC Review of Requests for Relief from ASME Code Section XI Requirements." This is a revision of our inservice inspection and testing program description and requests for relief submitted to the Commission on February 1, 1978.

The purpose of this revision is to:

- (a) Change the schedule for program updating to be consistent with changes to 10CFR Part 50, Section 50.55a, published in the Federal Register on October 9, 1979.
- (b) Correct a number of typographical errors in the valve testing tables.
- (c) Refine the method used for leakage testing of pressure isolation valves.
