SUBJECT: Reply to Notice of Violation
 (NRC Inspection Report No. 50-62/89-01)

Gentlemen:

This is a reply to the "Notice of Violation" dated August 30, 1989, which was issued following the NRC inspection conducted during the period July 11-13, 1989, by Mr. Craig H. Basset. The inspector's report and notice of violation were received by us on September 8, 1989. Our request for a short extension of the reply period, until October 10, 1989, was granted on September 27 during a phone conversation with Mr. Gerald Troup of the Region II office in Atlanta, who spoke to us on behalf of Mr. William Cline. The extension allowed us to prepare a better response, following discussions of applicable air sampling Lower Limit(s) of Detection, (LLD's), with Region II officials.

Sincerely,

James R. Gilchrist
 Radiation Safety Officer
