Lee V. Gossick
Executive Director for Operations
Nuclear Regulatory Commission
Washington, D.C. 20555

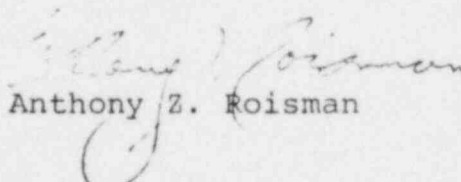

Dear Mr. Gossick:

Pursuant to our previous letters concerning steel containment buckling criteria, we have learned that the NRC's contractors International Structural Engineers, Inc., have completed the following studies:

1. Buckling Criteria and Application of Criteria to Design of a Steel Containment Shell.
2. Review of Offshore Power Systems Report No. 7270-rp-16a51.

We would appreciate receiving copies of this material.
Thank you.

Sincerely,

Anthony Z. Roisman
