RE: SigSauer License and SSD, Point of sale packaging label

Dear Mr. Herrera,

Please accept this letter as a request for amendment to SigSauer's license 28-35454-01E and SSD NR-1487-D-101-E.

In Sig's initial application for SSD and license, Sig provided a point of sale package label that provides more information than is required for self-luminous devices. This label requires additional labor for its placement on the package.

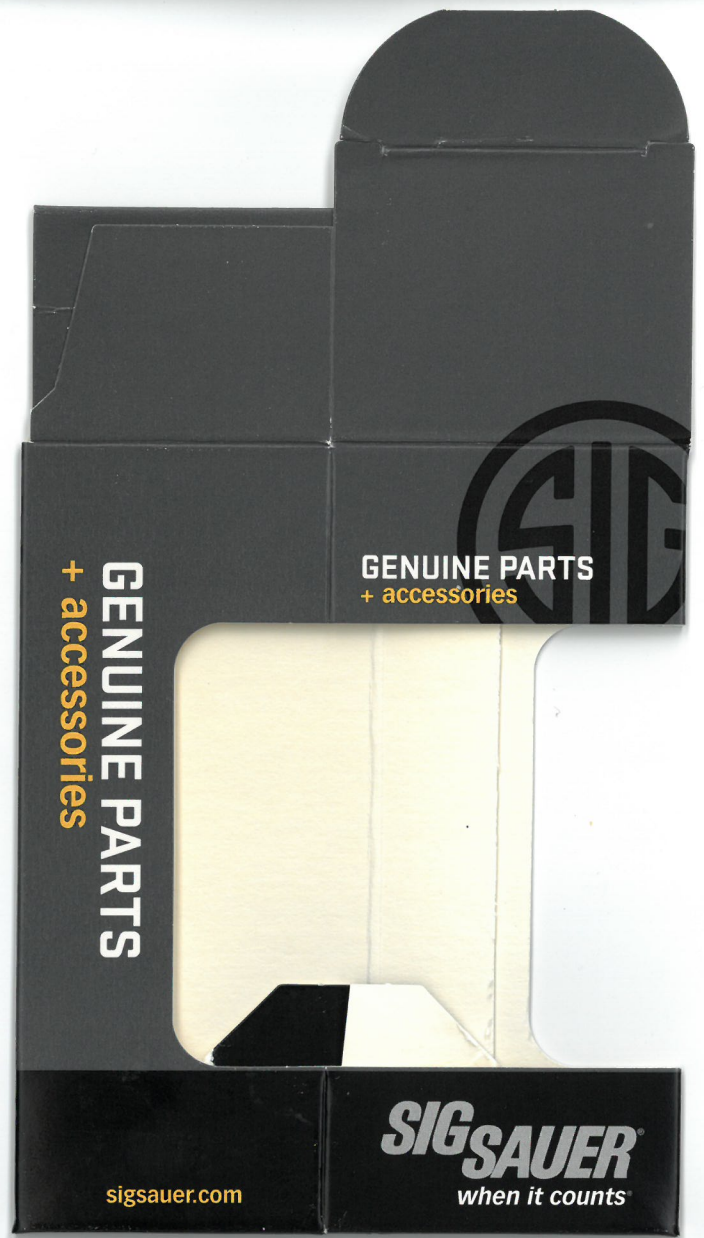

Sig's current packaging already contains Sig's name as the manufacturer or distributor and Sig's website address, as required by 10 CFR 32.25. An example of this packaging is included with this letter. Therefore Sig is requesting that the NRC recognizes that the packaging meets the requirements of 10 CFR 32.25 and that the additional labeling submitted with the initial application, is no longer required.

Additionally, Sig wishes to inform you that Mr. Sean Iller is no longer with Sig, and Mr. Bryan O'Leary is now serving as RSO. Mr. O'Leary may be contacted at (603) 610-3459 or bryan.o'leary@sigsauer.com.

Sincerely,

Bryan O'Leary
RSO for SigSauer
