THIS DOCUMENT CONTAINS
POOR QUALITY PAGES

Dear David:

Some time ago you requested the enclosed documents which John Wilson sent to me with a letter dated November 9th, but which just arrived yesterday. Those documents are:

1. The TMI-1 Project Organization and Responsibility Document dated August 30, 1974, with Revisions 1, 2 and 3 Incorporated; and

2. The TMI-2 Unit start-up and power excalation test document.

Since I have not heard otherwise, I assume that you are getting any additional information that you require for completing your report.

Very truly yours,

James B. Liberman
