In Re: Florida Power Corporation
Crystal River Unit #3
Docket No. 50-302

Dear Mr. DeYoung:

This letter is to inform you of the measures planned by Florida Power Corporation to meet the provisions of Section V.B of Appendix I to 10 CFR Part 50 for the Crystal River Unit 3 Nuclear Generating Plant. The proposed actions incorporate guidance provided in your letter of February 19, 1976, wherein an evaluation was requested of the capability of the Crystal River Unit 3 Nuclear Generating Plant to meet the requirements set forth in Section II of Appendix I to 10 CFR Part 50. That guidance also temporarily excluded the requirement for a plant specific assessment under Section II.D of Appendix I to 10 CFR Part 50.

Florida Power Corporation is performing the evaluation requested in Item 1 of Enclosure 1 to your previously referenced guidance letter. The evaluation incorporates guidance provided by the new Draft Regulatory Guides 1.AA, 1.BB, 1.DD, and 1.EE.

We are also gathering for submittal the information requested in Enclosure 2 to that guidance letter.

Our present plans include submittal of the requested information and the evaluation regarding Section II of Appendix I to 10 CFR Part 50 on or before June 4, 1976.
