Mr. Daniel Muller
Assistant Director for
Environmental Projects
Directorate of Licensing
U.S. Atomic Energy Commission
Washington, D.C. 20545

Dear Mr. Muller:

Subject: Crystal River Unit #3
Nuclear Plant
Docket No. 50-302

Since the June 27 meeting in your offices, the environmental affairs staff of Florida Power Corporation has been actively pursuing the resolution of all Crystal River #3 environmental research concerns left unanswered at that time. The two significant areas of concern were; (1) the selection of a biometrician, and (2) the definition of a comprehensive plankton research program. Both of these concerns have been resolved and the results are attached for your review. Dr. R. T. Lackey of VPI has been selected as the consulting biometrician. His resume and the logic for his selection are enclosed. Also enclosed is a discussion of our current plan for plankton research.

We believe that the plankton program which we have outlined represents an exhaustive effort to quantify the associate environmental parameters at Crystal River. Also, we feel that Dr. Lackey is well qualified to serve as a biometrician on this project. We are looking forward to your speedy approval of these portions of the Crystal River research program. If you have any questions concerning the attached, please contact our environmental affairs group.

Very truly yours,

J. T. Rodgers
Asst. Vice President

JTR/iw
Enclosures.
