Attention: Norman C. Moseley
Director

Subject: RO: II: MSK
50-302/73-10

Dear Mr. Moseley:

Regarding your letter of the inspection conducted by Mr. M. S. Kidd on October 10 - 12, 1973, at the Crystal River #3 facility, we wish to advise you that this report contains no proprietary information.

We, however, have minor comments regarding some details stated in the report. On Page I-1 of the Details Section of your letter, paragraph 2, titled "Personnel Changes" contains references to Florida Power Corporation's group as Site Quality Assurance (QA). This should be titled "Site Quality Surveillance" (QS). On Page I-2 of the same Section, second paragraph, the reference to our Quality Manual contains what appears to be a commitment that the completion of the revision would be met in three months. We do not wish that this estimate be taken as a commitment, and did not mean to convey that to Mr. Kidd.

If you have any further questions concerning this reply, please advise us.

Very truly yours,

A handwritten signature in cursive script that reads "Joel T. Rodgers".

FLORIDA POWER CORPORATION
Joel T. Rodgers
Assistant Vice President
