Dear Mr. Muller:

We recently received your letter of November 8, 1972, transmitting to us copies of comments from federal, state and local agencies on the A.E.C. Draft Environmental Statement for Crystal River Unit 3. In this letter you requested that we review these comments and submit any responses that we deem appropriate by December 1, 1972.

Due to the nature and scope of the comments, and our desire to clarify this complex affair to the maximum extent possible, we request that additional time be allocated for us to prepare our responses. We feel that January 15, 1973, is the earliest time that we can reasonably respond.

An additional concern in requesting this time extension is that not all comments have yet been received. For example, we have not received any comments from the United States Department of the Interior as yet. For this reason, it would be somewhat premature for us to address comments by the requested December 1, 1972, date.

If you desire further clarification or discussion of the above, please feel free to contact us.

Yours very truly,

J. T. Rodgers
