# FLORIDA POWER CORPORATION

ST. PETERSBURG FLORIDA

March 25, 1968

Dr. Peter A. Morris, Director  
Division of Reactor Licensing  
U. S. Atomic Energy Commission  
Washington, D. C. 20545

Re: Florida Power Corporation  
Crystal River Plant, Units 3 & 4  
Dockets 50-302 and 50-303

Regulatory Suppl File Cy.

Dear Dr. Morris:

On August 10, 1967, the Florida Power Corporation made application for necessary licenses (including a construction permit) to construct and operate a Nuclear Generating Plant to be known as Crystal River Units 3 and 4. Such nuclear facility will be operated as an integral part of our total operating system.

This letter is to advise the AEC that from our evaluation of predicted future system load growth Florida Power Corporation has concluded that construction of Crystal River Unit No. 4 for operation in 1974 would not constitute a prudent investment in generating capability.

In accord with this decision, the Florida Power Corporation as of Monday, March 25, 1968, withdraws its application for Crystal River Unit No. 4 (Docket 50-303).

In the immediate future the application for Crystal River Nuclear Generating Plant will be amended to reflect the removal of No. 4 unit from the plant design and show the extent which the deletion of Unit No. 4 affects Unit No. 3 (Docket 50-302).

Sincerely yours,

J. T. Rodgers  
Nuclear Project Engineer
