FEB 6 1980

Richard P. Pollock, Director
Critical Mass Energy Project
P. O. Box 1538
Washington, D. C. 20013

Dear Mr. Pollock:

Since you have expressed an interest in cladding swelling and rupture models for LOCA analysis, you might be interested in an ACRS Subcommittee meeting on this subject to be held on Thursday, February 14, 1980. The meeting will run from about 8:45 a.m. to 11:30 a.m. and will be held on the 10th floor of 1717 H Street in Washington.

Sincerely,

A handwritten signature in dark ink, appearing to read "Richard P. Denise", is written over the typed name.

Richard P. Denise, Acting Assistant
Director for Reactor Safety
Division of Systems Safety
