U.S. Nuclear Regulatory Commission  
Division of Operating Reactors  
Washington, D.C. 20555

Docket No.: 50-294  
Attn: Steve Ramos  
Re: Renewal of Operating License R-114

Gentlemen:

In our continuing and seemingly endless attempt to renew R-114, we submit for your review, 40 copies of our Technical Specifications, amended in the format used by Texas A&M and Washington State Universities. While re-writing our Tech Specs, we tried to remain as faithful as possible to our old Specifications and yet comply with the requirements of the new format. We eagerly await your response to the proposed revision.

Sincerely,

*Stephen H. Terry*  
Roger Wilkinson
