Docket No. 50-280

License No. DPR-32

SHOW CAUSE ORDER REANALYSIS REPORT
ERRATA INSERT TRANSMITTAL
SURRY POWER STATION UNIT 1

Dear Mr. Denton:

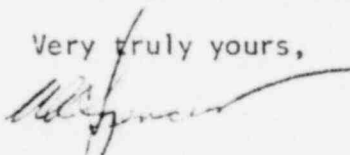

The Virginia Electric and Power Company letter of January 15, 1980, Serial 048, included a report that concluded our detailed submittals on the Design Basis Earthquake for Unit 1.

The assembly and categorization of data for this submittal resulted in some minor errors which we seek to rectify. Enclosed are instructions and replacement pages for that submittal.

The subject changes noted in the margins, are minor, generally typographical in nature, and do not impact our previous letters which stated that the Design Basis Earthquake Analysis and installation of "Show Cause" modifications is complete.

We regret the inconvenience. If you have any questions, please contact us.

Very truly yours,

W. E. Spencer

Vice President - Power Station Engineering
and Construction Services
