Reference: Beaver Valley Power Station, Unit No. 1
Docket No. 50-334, License No. DPR-66
I.E. Inspection No. 79-18 Enforcement Item 79-18-05

Dear Mr. Grier:

In our response to the above referenced inspection dated December 19, 1979, we stated that the date for which full compliance would be achieved for Item 79-18-05 would be January 31, 1980. This letter is to request an extension of the full compliance date until April 1, 1980.

We have determined that the scope of work to update the station files to incorporate revisions required due to design changes, is much greater than our original review indicated. This work is progressing on a timely basis with approximately 25% of the work completed.

If you have any questions, please contact my office.

Very truly yours,

C. N. Dunn
