Dear Sir:

Three Mile Island Nuclear Station, Unit 1
Operating License No. DPR-50
Docket No. 50-289
Inspection 50-289/78-18

This letter is in response to your letter of November 15, 1979, concerning the corrective and preventative actions planned for Inspection 78-18.

At this time, we are evaluating the extremity dose to whole body dose ratios and will base all action upon the results of this evaluation. Additionally, a review to determine the corrective actions needed to alleviate the termination letter errors, is being performed. Because these reviews have not been completed, we are requesting an extension until December 31, 1979, to respond to your letter.

Sincerely,

J. G. Herbein
Vice President-Nuclear Operations
