Rcf.: SLNRC 80-5, dated February 1, 1980, Same Subject

Dear Mr. Grier:

This letter is submitted in response to the subject IE Bulletin for the SNUPPS Utilities, Kansas Gas and Electric Company, Union Electric Company, and Rochester Gas and Electric Corporation.

The referenced letter reported that our investigation concerning the planned use of NAMCO EA180 switches was not complete. The identification of these switches in the SNUPPS design and the development of plans for corrective action have required more time than had been anticipated. We are expediting the action required by IE Bulletin 79-28 and will provide the NRC with a final response as soon as possible.

Very truly yours,

  
Nicholas A. Petrick

RLS/dck
