

Portland General Electric Company

William Lindblad, Vice President

April 4, 1980

Pebble Springs Nuclear Plant
Dockets 50-514
50-515

Request for Information Regarding
Evacuation Times

Mr. Brian K. Grimes, Director
Emergency Preparedness Task Group
Office of Nuclear Reactor Regulation
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Sir:

In your letter of December 26, 1979, Portland General Electric Company was requested to provide information regarding estimates of evacuation times around future nuclear power plants. We have completed this evaluation and have attached a summary report for your information.

As a result of this preliminary study, no unusual evacuation problems have been identified for the Pebble Springs Nuclear Plant site. The estimated evacuation time for normal conditions is 1 hr. and for abnormal conditions is 1 hr. and 20 min. Local officials have had an opportunity to review this report and their comments have been incorporated.

Sincerely,

W. Lindblad
Vice President
Engineering-Construction
