Docket No. 50-339

Dear Mr. Denton:

CHANGE IN REVIEW PROCEDURES FOR EQUIPMENT QUALIFICATION  
DOCUMENTATION FOR THE NORTH ANNA POWER STATION, UNIT 2

We have reviewed your letter dated February 19, 1980, and started work on the response requested. There are problems in interpretation of the "Interim Staff Positions" and we earlier requested a meeting for clarification. Later we did have a telecon with your Mr. Satterfield and several members of the staff that provided some clarification and on that basis we are continuing the effort to respond.

Our schedule now indicates the full response will be submitted to you by August 4, 1980.

Very truly yours,

  
Sam C. Brown, Jr.  
Senior Vice President - Power Station  
Engineering and Construction
