

POOR ORIGINAL

June 7-79

Chairman Joseph Hendrie  
Nuclear Regulatory Com.  
Washington D.C.  
20500

Dear Chairman Hendrie

I wanted you to know I'm  
a guest at the nuclear Power Plant  
being built in Seaboard N.H. I  
live a few miles away & it really  
frightens me - after what happened  
at the three mile Island  
plant - it makes you think  
if what might if - happened - are  
they gonna wait until a  
accident occurs before something  
is done - We have no evacuation  
plan & if anything happened in  
the summer, this is a vacation  
resort with thousands of people  
jamming the seacoast area.

Sincerely,  
Lorraine Eaton  
South Road
