STATEMENT OF WORK

1. TITLE

Change Intelligence Workshop for the Branch Chiefs in the Office of Nuclear Reactor Regulation

2. BACKGROUND

In October 2019, the Office of Nuclear Reactor Regulation (NRR) and the Office of New Reactors (NRO) in the U.S. Nuclear Regulatory Commission (NRC) merged into one office, NRR. The merger of NRR and NRO will improve internal coordination, balance the workload, and provide greater flexibility to respond to a dynamic environment. The merger will streamline the merged office's processes, incorporating best practices from the prior organizations, and better align the staff on technical and regulatory issues.

This merger has resulted in the formation of a new leadership team that has been identified to support the priorities and objectives of NRR. With the advent of these organizational changes, coupled with the unpredictable changes in the nuclear industry, NRR leaders will need to be well-equipped with change intelligence, or CQ, to be successful in meeting the organization's mission.

CQ is the awareness of one's own change leadership style and the ability to adapt one's style to be optimally effective in leading change across a variety of situations. Ensuring that we continue to develop more agile leaders via tactics that help to influence-up, collaborate cross-functionally, and motivate direct reports to forge partnerships up, down, and across the organization, would be vital to the success of the NRR Branch Chiefs.

3. OBJECTIVE

The objective of this contract is to obtain expert services to facilitate Change Intelligence® assessments for approximately 50 NRR Branch Chiefs and to provide a four-hour workshop based on the CQ® System for Developing Change Intelligence®.

4. SCOPE

The NRR Branch Chiefs are seeking to leverage their personal leadership style to lead change more effectively using a leadership assessment, specifically designed to help change leaders understand how to manage shifts in different scenarios depending on the type of change occurring, the business objective, the organizational culture, the people involved, and many other factors.

The contractor shall facilitate Change Intelligence® assessments for approximately 50 NRR Branch Chiefs. The assessment identifies a Branch Chief's propensity to lead with his or her Heart, Head, Hands, or some combination of the three. Presumably, if you lead mainly from the Heart, you connect with people emotionally; if you lead from the Head, you connect with people cognitively; and if you lead from the Hands, you connect with people behaviorally.

The contractor shall also facilitate a four-hour workshop based on the CQ® System for Developing Change Intelligence®. This system is inherently based on decades of leading transformational change

across diverse industries, years of conducting global research on managing change, and a study of psychology and neuroscience of change.

The contractor shall provide access to books, materials and/or other resources that would help to apply the concepts learned in the workshop and strengthen the change leadership skills.

Using highly-interactive exercises grounded in a work-context, the projected learning outcomes for each participant will include the ability to:

- Overcome resistance to change by reframing resistance and using it as a powerful source of information to lead others to embrace change;
- Enlighten the head, engage the heart, equip the hands to get people moving in positive, new directions so change sticks;
- Become a more agile leader by learning tactics to influence-up, collaborate cross-functionally, and motivate direct reports to forge partnerships up, down, and across the organization;
- Diagnose your own Change Intelligence®, and build the CQ® of the people and teams you lead;
- Develop your CQ® to drive change that gets results, recoups your investment, and makes a bottom line difference for your organization, team and career; and
- Emerge as a more competent and confident - and less stressed and frustrated – leader of change.

5. SPECIFIC TASKS

Task 1: Kickoff meeting and Planning

Expected activities for the kick-off meeting and planning process include:

- Introductions of key staff involved with this request/statement of work (to include the NRR Office Director, and designated NRC point of contact (POC) and the workshop facilitator);

- Understand what Change Intelligence® is and why it is a critical competency for leaders;
- Get a sense of their own Change Leader style, along with its strengths and blind spots;
- Discover hints about how to engage the Heart, inspire the Head, and help the Hands to motivate people to move together towards positive new directions
- Emerge as more competent and confident leaders of change;

- Learn to engage for change – to partner with key stakeholders and sponsors, and influence with and without authority to build relationships and get results;
- Build CQ for teams to jointly lead change collectively and effectively; and

D.12 CONTRACTOR RESPONSIBILITY FOR PROTECTING PERSONALLY IDENTIFIABLE INFORMATION (PII)

In accordance with the Office of Management and Budget's guidance to Federal agencies and the Nuclear Regulatory Commission's (NRC) implementing policy and procedures, a contractor (including subcontractors and contractor employees), who performs work on behalf of the NRC, is responsible for protecting, from unauthorized access or disclosure, personally identifiable information (PII) that may be provided, developed, maintained, collected, used, or disseminated, whether in paper, electronic, or other format, during performance of this contract.

A contractor who has access to NRC owned or controlled PII, whether provided to the contractor by the NRC or developed, maintained, collected, used, or disseminated by the contractor during the course of contract performance, must comply with the following requirements:

(1) General. In addition to implementing the specific requirements set forth in this clause, the contractor must adhere to all other applicable NRC guidance, policy and requirements for the handling and protection of NRC owned or controlled PII. The contractor is responsible for making sure that it has an adequate understanding of such guidance, policy and requirements.

(2) Use, Ownership, and Nondisclosure. A contractor may use NRC owned or controlled PII solely for purposes of this contract, and may not collect or use such PII for any purpose outside the contract without the prior written approval of the NRC Contracting Officer. The contractor must restrict access to such information to only those contractor employees who need the information to perform work under this contract, and must ensure that each such contractor employee (including subcontractors' employees) signs a nondisclosure agreement, in a form suitable to the NRC Contracting Officer, prior to being granted access to the information. The NRC retains sole ownership and rights to its PII. Unless the contract states otherwise, upon completion of the contract, the contractor must turn over all PII in its possession to the NRC, and must certify in writing that it has not retained any NRC owned or controlled PII except as otherwise authorized in writing by the NRC Contracting Officer.

(3) Security Plan. When applicable, and unless waived in writing by the NRC Contracting Officer, the contractor must work with the NRC to develop and implement a security plan setting forth adequate procedures for the protection of NRC owned or controlled PII as well as the procedures which the contractor must follow for notifying the NRC in the event of any security breach. The plan will be

incorporated into the contract and must be implemented and followed by the contractor once it has been approved by the NRC Contracting Officer. If the contract does not include a security plan at the time of contract award, a plan must be submitted for the approval of the NRC Contracting Officer within 30 days after contract award.

(4) Breach Notification. The contractor must immediately notify the NRC Contracting Officer and the NRC Contracting Officer's Representative (COR) upon discovery of any suspected or confirmed breach in the security of NRC owned or controlled PII.

(5) Legal Demands for Information. If a legal demand is made for NRC owned or controlled PII (such as by subpoena), the contractor must immediately notify the NRC Contracting Officer and the NRC Contracting Officer's Representative (COR). After notification, the NRC will determine whether and to what extent to comply with the legal demand. The Contracting Officer will then notify the contractor in writing of the determination and such notice will indicate the extent of disclosure authorized, if any. The contractor may only release the information specifically demanded with the written permission of the NRC Contracting Officer.

(6) Audits. The NRC may audit the contractor's compliance with the requirements of this clause, including through the use of online compliance software.

(7) Flow-down. The prime contractor will flow this clause down to subcontractors that would be covered by any portion of this clause, as if they were the prime contractor.

(8) Remedies:

(a) The contractor is responsible for implementing and maintaining adequate security controls to prevent the loss of control or unauthorized disclosure of NRC owned or controlled PII in its possession. Furthermore, the contractor is responsible for reporting any known or suspected loss of control or unauthorized access to PII to the NRC in accordance with the provisions set forth in Article 4 above.

(b) Should the contractor fail to meet its responsibilities under this clause, the NRC reserves the right to take appropriate steps to mitigate the contractor's violation of this clause. This may include, at the sole discretion of the NRC, termination of the subject contract.

(9) Indemnification. Notwithstanding any other remedies available to the NRC, the contractor will indemnify the NRC against all liability (including costs and fees) for any damages arising out of violations of this clause.

(End of Clause)

NRC contractor(s) and subcontractor(s) shall comply with the requirements of this Whistleblower Employee Protection law, and the implementing regulations of the NRC and the Department of Labor (DOL). See, for example, DOL Procedures on Handling Complaints at 29 C.F.R. Part 24 concerning the employer obligations, prohibited acts, DOL procedures and the requirement for prominent posting of notice of Employee Rights at Appendix A to Part 24 entitled: "Your Rights Under the Energy Reorganization Act".

(b) Under this Whistleblower Employee Protection law, as implemented by regulations, NRC contractor and subcontractor employees are protected from discharge, reprisal, threats, intimidation, coercion, blacklisting or other employment discrimination practices with respect to compensation, terms, conditions or privileges of their employment because the contractor or subcontractor employee(s) has provided notice to the employer, refused to engage in unlawful practices, assisted in proceedings or testified on activities concerning alleged violations of the Atomic Energy Act of 1954 (as amended) and the Energy Reorganization Act of 1974 (as amended).

(c) The contractor shall insert this or the substance of this clause in any subcontracts involving work performed under this contract.

(End of Clause)

D.14 COMPLIANCE WITH U.S. IMMIGRATION LAWS AND REGULATIONS

NRC contractors are responsible to ensure that their alien personnel are not in violation of United States immigration laws and regulations, including employment authorization documents and visa requirements. Each alien employee of the Contractor must be lawfully admitted for permanent residence as evidenced by Permanent Resident Form I-551 (Green Card), or must present other evidence from the U.S. Department of Homeland Security/U.S. Citizenship and Immigration Services that employment will not affect his/her immigration status. The U.S. Citizenship and Immigration Services provides information to contractors to help them understand the employment eligibility verification process for non-US citizens. This information can be found on their website, <http://www.uscis.gov/portal/site/uscis>.

The NRC reserves the right to deny or withdraw Contractor use or access to NRC facilities or its equipment/services, and/or take any number of contract administrative actions (e.g., disallow costs, terminate for cause) should the Contractor violate the Contractor's responsibility under this clause.
