DiSibio's office did not date letters
before dispatching. Letters mailed 3/27/80.

Dear Mr. Baietti:

The February 20-21 meeting to identify and seek practical solutions to problems which nuclear waste generators, transporters, collectors, disposal site operators and regulatory agencies are experiencing was one step in the resolution of operational problems which those in the low-level waste cycle are experiencing. For your willingness to help us in this effort, please accept our thanks.

We are in the process of summarizing the presentations, editing the group reports and formulating an action plan. You will receive that document within the next month. We would appreciate your reaction to the meeting and forthcoming document.

Sincerely,

A handwritten signature in cursive script, reading "G. Wayne Kerr", is positioned above the typed name.
