Attention: Mr. James P. O'Reilly

Reference: 50-425; Erosion Under Unit 2 Cable Tunnel

Gentlemen:

On March 10, 1980, it was reported to your office that a potential reportable item under 10CFR50.55e existed at Plant Vogtle concerning erosion under the Unit 2 cable tunnel. The repairs are now complete and Georgia Power Company is submitting the attached report concerning this incident.

The evaluation concludes that the erosion is a reportable deficiency and also represents a substantial safety hazard.

This response contains no proprietary information and may be placed in the NRC Public Document Rooms upon receipt.

Very truly yours,

Doug Dutton
Project General Manager
