In the Matter of the)	Docket Nos. 50-259
Tennessee Valley Authority)	50-260
		50-296

We have reviewed the request for additional information regarding degraded grid voltage at the Browns Ferry Nuclear Plant transmitted by your letter to H. G. Parris dated April 8, 1980. This request is in reference to our submittal dated May 12, 1978. As discussed with R. J. Clark of your staff, we will submit a complete description of the modified electrical system in the near future and, therefore, we do not believe it would be appropriate to respond to your request at this time.

Very truly yours,

TENNESSEE VALLEY AUTHORITY
