P. O. BOX 679

KANSAS CITY, MISSOURI 64141

May 1, 1980

DONALD T. MCPHEE  
VICE-PRESIDENT

Mr. Harold R. Denton, Director  
Office of Nuclear Reactor Regulation  
United States Nuclear Regulatory Commission  
Washington, D. C. 20555

Dear Mr. Denton:

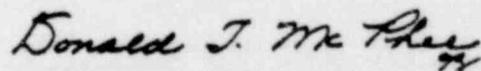

Docket No. STN50-482, STN50-483,  
STN50-586

Confirming our telephone conversation of this morning, I was disappointed to hear that your office has not yet been able to name a SNUPPS Project Manager. It is encouraging to hear, however, that you plan to do so within a couple of weeks. I trust that you can hold this schedule. We, of course, are anxious that a Project Manager be named and that both projects--Callaway and Wolf Creek--be docketed as soon as possible.

Also as per our discussion, we are anxious to receive a reply to Mr. Petrick's letter to you of April 23. As pointed out in Mr. Petrick's letter, we would like to get on with working on those suggestions made by your staff at a meeting on April 1. We believe a reply to Mr. Petrick's letter will help us develop a better understanding of just what your staff has in mind in this area.

I appreciate very much your taking time to discuss this matter with me and want to assure you that the SNUPPS organization feels confident of its ability to satisfy all of the NRC's concerns in a timely manner and is very anxious to do so.

Very truly yours,

Donald T. McPhee, Chairman  
SNUPPS Management Committee
