Atlanta, Georgia 30303

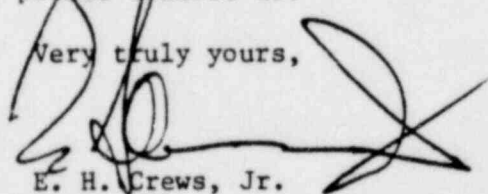

Subject: Virgil C. Summer Nuclear Station  
Reportable Substantial Safety Hazard  
Service Water Booster Pump Motor Failure  
Nuclear Engineering File 3.1051

Dear Mr. O'Reilly:

On March 28, 1980 South Carolina Electric & Gas Company reported to the NRC that we were reviewing the failure of one of our service water booster pumps as a potential substantial safety hazard as defined by 10CFR21. We have determined that the item is reportable, and we are reporting it as a significant deficiency under 10CFR50.55(e). Details are presented on the attached sheets.

This is considered the final report on this item. If you require further information, please contact us.

Very truly yours,

E. H. Crews, Jr.
