Mr. Carlton Kammerer, Director  
Office of Congressional Affairs  
Nuclear Regulatory Commission  
1717 H Street, N.W.  
Washington, D.C. 20555

Dear Mr. Kammerer:

I am enclosing a letter from Mr. Paul Schlundt of Park Ridge, Illinois which is self-explanatory.

Your assistance in directing this to the proper office for response will be deeply appreciated.

Sincerely,

Henry J. Hyde

PAUL J. SCHLUNDT  
ATTORNEY AT LAW  
1419 S. GREENWOOD AVENUE  
(NEAR KENNEDY EXPRESSWAY)  
PARK RIDGE, ILLINOIS 60068

February 29, 1980.

Hon. Henry Hyde,  
Washington, D.C.

Dear Representative:

As a citizen of Park Ridge, and having invested in General Public Utilities which unfortunately owns Three Mile Island instead of Commonwealth Edison, I am sending this letter.

I understand that Commonwealth Edison has more Nuclear stations than any other utility in the United States. And if instead of the accident having been in Illinois rather than where it was, Illinois would be in serious trouble.

And if we would not have Nuclear power, we, Illinois as well as all the 50 states, would really be in grave trouble, and serious power shortage.

I am wondering why the Nuclear Commission by this time does not permit the G.P.U. units which are in working order to operate. And considering the fact that Nuclear power has been used for such a long time with only one serious accident to my knowledge - why prevent those nuclear units in operable condition from operating!

We in Illinois are happy the accident did not happen in Illinois, and that we have the energy. I feel sorry for those in whose territory the Three Mile Island is located and who are getting their power by it being furnished through GPU having to buy the power

I know there are always complainers to every question, but why don't such complainers come up with a solution.

If you can help, Thank You.

Paul J. Schlndt.
