

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

PDR

JUN 6 1980

DOCKET NO. 50-324
50-325

Carolina Power and Light Company
ATTN: Mr. Joe Sheppard
P.O. Box 1551
Raleigh, North Carolina 27602

Gentlemen:

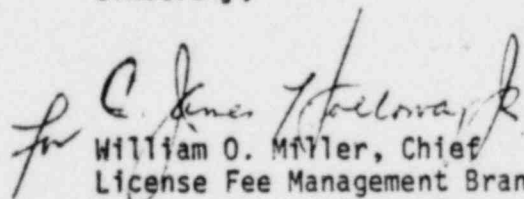

This refers to your June 28, 1979 request for route approval to cover shipments of irradiated reactor fuel from the H.B. Robinson Plant to the Brunswick Steam Electric Plant.

We have determined that the review of licensee route approval requests is subject to the Commission's license fee schedule in 10 CFR 170. For reactor licensees, fees for the review of route approval requests will be assessed under fee Category F of Section 170.21, as special projects. In accordance with Footnote 4 of Section 170.21, the charge for the review will be determined by the Commission based on the professional manpower required to conduct the review plus any support costs. In determining the fee to be charged, only actual staff time expended in the review of the route request is used to calculate the fee; the route (field) survey conducted by the NRC staff is excluded from fee computation.

The review of the June 28, 1979 route approval request was completed on July 13, 1979 (copy enclosed). The cost of the review amounted to \$1,444 (38 man-hours @ \$38/man-hr.). We have notified the NRC Office of the Controller to issue your Company an invoice for the fee.

We apologize for the delay in notifying you of the fee requirement for route approval reviews. If you have any questions concerning this matter, please let us know.

Sincerely,

for 
William O. Miller, Chief
License Fee Management Branch
Office of Administration
