Responsible Branch and Project Manager: PWR #4; I. A. Peltier  
Requested Completion Date: August 9, 1973  
Applicant's response date necessary for completion of next action  
planned on project: N/A  
Description of Response: Memorandum  
Review Status: Complete

The Steam Generator Compartment Analysis Report dated August, 1973  
submitted by the applicant has been reviewed and evaluated by the  
Structural Engineering Branch, Directorate of Licensing. The Structural  
Engineering Branch found that the information provided by the appli-  
cant is adequate and that the structure can withstand the design  
loads with a sufficient margin of safety.

R. R. Maccary, Assistant Director  
for Engineering
