dated February 13, 1980

Subject: Vermont Yankee Contingency Plan

Dear Sir:

This letter is written to provide the additional information requested in Reference (2). In the general comments section of the enclosure of Reference (2) the NRC requested that the revised plan pages be given a revision number and date. Vermont Yankee is establishing a revision index and will provide such a designation in the near future; however, this system will not assign revision numbers to changes which require NRC approval. Such changes will be assigned a proposed change number (as this submittal has) and will not be implemented until approved by the NRC. Upon approval, a revision number will be assigned, the revised pages marked accordingly, and the change distributed.

The enclosed information is considered proprietary in accordance with Title 10, Code of Federal Regulations, Part 2.790. This material should be withheld from public disclosure.

We trust this information will be satisfactory. Should additional information be required, please feel free to contact us.

Very truly yours,

VERMONT YANKEE NUCLEAR POWER CORPORATION
