Executive Vice President  
Power Plants

Gentlemen:

Thank you for your letter dated February 11, 1980, informing us of the steps you have taken, or plan to take, to correct the noncompliance identified in our letter dated January 11, 1980. We will examine your corrective action during a subsequent inspection.

Based on a review of our records, we have determined that the item of noncompliance in Appendix A to our January 11, 1980 letter (Inspection Report No. 50-266/79-18 and No. 50-301/79-19) should have been classified as a deficiency rather than an infraction. Hence, we are enclosing a revised Appendix A to our January 11, 1980 letter for your records. We informed Mr. J. Greenwood of your staff of this change by telephone on February 5, 1980.

Your cooperation with us is appreciated.

Sincerely,

A. B. Davis, Chief  
Fuel Facility and Materials  
Safety Branch
