Gentlemen:

By letter dated April 11, 1980, your Company transmitted Technical Specification Change Request No. 91 to the Office of Nuclear Reactor Regulation (ONRR) for review. The request relates to the TMI-1 (License No. DPR-50) reactor vessel surveillance program and was accompanied by a Class II amendment fee of \$1,200.

Based on information provided by the ONRR staff as a result of a preliminary review of your request, it has been determined that the proposed action involves consideration of a safety issue requiring a Class III fee of \$4,000. Therefore, it is requested that \$2,800 be remitted to this office promptly. If the final review of your request by the ONRR staff reveals that this fee is incorrect, an adjustment will be made.

Sincerely,

Original Signed by
