DOCKET NUMBER

PETITION RULE PRM-50-26 (2)

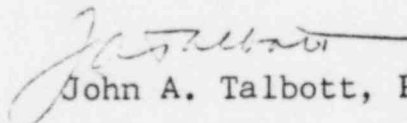

Attn: Joseph Felton

RE: 45 FR February 15, 1980 P.10360; Docket No. PRM-50-26;
10CFR Part 50

Dear Sir:

The petition for rule making to require an applicant for a license for a facility to store nuclear products to design a facility to protect against release to the atmosphere of these parts if the facility is attacked by nuclear weapons detonated at ground level is really without merit. I earnestly request that you desist from issuing such rules.

Very truly yours,
TALBOTT, WONG & ASSOCIATES, INC.
