

MAY 15 1974

R. S. Boyd, Assistant Deputy Director  
for Reactor Projects  
Directorate of Licensing

Docket No. 50-287

DUKE POWER COMPANY (OCONEE 3)  
COMPLETION STATUS

Enclosed is a preliminary list of outstanding items on Oconee 3 that require satisfactory resolution. Pending resolution of these items, and perhaps others resulting from future prelicensing inspections, RO will recommend issuance of an operating license.

July 2, 1974 is the current scheduled fuel loading date for this reactor. RO plans to conduct an inspection on May 14-17, 1974 to review DPC's progress. We will keep you informed.

Original signed by  
H.D. Thornburg

Harold D. Thornburg, Chief  
Field Support & Enforcement Branch  
Directorate of Regulatory Operations
