ACRS SUBCOMMITTEE FOR DUKE OCONEE PROJECT 50-269

Based on a phone call from Mort Libarkin, the ACRS Subcommittee for the Oconee review has set its next subcommittee meeting for July 31 here in Washington. Holding this meeting is predicated on receipt of the staff's review report to the ACRS, which Mr. Libarkin understands will be transmitted July 27. The only agenda item identified to date is discussion of the ECCS, which he expects to be in a depth similar to recent discussions on Indian Point 2 (Westinghouse plant) and Ft Calhoun (CE plant). This date for an ACRS meeting was given to Duke Power Company in a phone call to Paul Barton this date.

A handwritten signature in cursive script, reading "A. Schwencer", is positioned above the typed name.

A. Schwencer, Senior Project Leader
PWR Project Branch 2
Division of Reactor Licensing
