

JUL 17 1972

Docket Nos. 50-270
and 50-287

J. M. Hendrie, Deputy Director for Technical Review
Directorate of Licensing

OCONEE UNIT 2/3 REVIEW

In accordance with our memo to you dated June 14, 1972, enclosed is a skeleton format in rough draft form of Supplement No. 2 to the original Oconee Safety Evaluation Report to cover Oconee Units 2 and 3. You will note that it is in the format of the original Safety Evaluation Report and is intended to assist the various review branches in organizing their contributions to the report. Each review branch should revise the draft wording to assure that it is ideally suited to the evaluation performed by that branch.

Since there has been no response to the June 14, 1972 memo we assume that no second round questions to the applicant will be required and that Technical Review's contribution to the Safety Evaluation Report will be completed by September 25, 1972 in accordance with the Blue Book schedule.
