SECY-R-

58-270

TO: The Commissioners
 THRU: Director of Regulation (signed) LMM
 SUBJECT: ISSUANCE OF FACILITY OPERATING LICENSE TO DUKE POWER COMPANY

We have issued Facility Operating License No. DPR-47 to the Duke Power Company. The license authorizes Duke Power Company to operate the Oconee Nuclear Station, Unit 2, at 2568 megawatts thermal in accordance with the Technical Specifications appended thereto. These Technical Specifications restrict Unit 2 to 95% of rated power until test data now under review for Unit 1 have confirmed that the Unit 1 prototype plant can be operated at significant power levels up to 95% of power in accordance with design predictions. The facility is located on the applicant's site in eastern Oconee County, about eight miles northeast of Seneca, South Carolina.

(Signed) John F. O'Leary

John F. O'Leary
Director of Licensing
