Doct et No. 50-346

April 9, 1976

Director of Nuclear Regulation Attention: Mr. R. C. De Young

Assistant Director for Light Water Reactors

Division of Project Management

United States Nuclear Regulatory Commission Washington, D. C. 20055

Dear Mr. De Young:

In our March 22 letter to you concerning the measures we proposed to show compliance with 10 CFR 50.34a for the Davis-Besse Nuclear Power Station Unit No. 1, we suggested a meeting with the Staff to discuss submittal of this data and methods of evaluation. On March 30, 1976, the Staff held a meeting for the utilities in Region III at the NRC Region III offices in Glen Ellyn, Illinois to disconst these items. This meeting was attended by our staff and technical representatives. As a result of this meeting, we do not believe it necessary to meet with the Staff in Bethesda as suggested in our March 22, 1976 letter.

Yours very truly,
