Florida Power

February 11, 1976

Dr. D. A. Butler Light Water Reactors Branch #4 Director of Nuclear Reactor Regulation U.S. Nuclear Regulatory Commission Washington, D.C. 20525

In Re: Florida Power Corporation

Crystal River Unit #3 Docket No. 50-302

Dear Dr. Butler:

On December 10, 1975, we met with NRC staff and discussed our response package covering our Test Program for compliance with Reg. Guide 1.79, including answers to nine (9) specific questions we had received during earlier sessions.

We have received verbal confirmation of acceptance from Mr. Leon Engle of the program presented at the 12/10/75 session, and have filed with the Commission on December 18, 1975, all documents used in our discussions with the exception of the Line Loss Calculations used by Babcock & Wilcox.

Attached is a copy of the Babcock & Wilcox Line Loss Calculations for Reactor Building Spray and Decay Heat Removal Pump Suction Piping during the recirculation mode from the Reactor Building Sump. This submittal should complete Florida Power Corporation's documentation of all information used in our discussions and responses.

Please feel free to contact this office if additional discussion is required.

Very truly yours,

J. T. Rodgers

Asst. Vice President

JTR/iw Attached.
