Mr. A. F. Perez, President
Florida Power Corporation
St. Petersburg, Florida

Dear Mr. Perez:

The 60-day extension, requested in your letter of October 14, 1971, for the submittal of the Environmental Report on the Crystal River Unit #3 is granted.

Although we are granting your request for an extension of the deadline, we would like to point out that, in accordance with the revised Appendix B of 10 CFR Part 50, the Commission's regulatory staff must make a complete review and evaluation of the environmental impact of each Licensing action and must prepare a detailed statement of environmental considerations. In addition, during this process, the views of other agencies on the proposed action have to be obtained and taken into consideration. To avoid delays, this procedure requires a prompt and complete report of the basic information from the applicant.

Accordingly, we urge you to send us as soon as possible the Environmental Report so we may proceed.

Very truly yours,

Original Signed by
Peter A. Morris

Peter A. Morris, Director
Division of Nuclear Licensing
