

Docket No. 50-302

JUN 18 1971

POOR ORIGINAL

Mr. Jeffrey S. Knudsen
Riverside Villas
P. O. Box 258
Homosassa, Florida 32646

Dear Mr. Knudsen:

Your recent letter to the President has been referred to the Atomic Energy Commission for reply.

The power plant site you described appears to be the site of Florida Power Corporation's Crystal River Plant. Units 1 and 2 of this plant are operating and are fired by fossil fuel. Unit 3 is a nuclear fueled plant and is just being built at this time. The three booklets I am enclosing describe nuclear plants such as the Crystal River Unit 3 and our procedures for licensing and regulating them. I am also enclosing a copy of the Florida Power Corporation's environmental report concerning Unit 3.

If you would like to have information concerning the operation of the fossil fueled units, you may want to write to the Florida Power Corporation, St. Petersburg, Florida 33733, or to the Environmental Protection Agency, 1626 K Street, N.W., Washington, D. C. 20460.

Sincerely,

Original Signed by
Peter A. Morris

Peter A. Morris, Director
Division of Materials Licensing

Enclosures:

1. "Licensing of Power Reactors"
2. "Atomic Power Safety"
3. "Nuclear Power and the Environment"
4. Environmental report - Crystal River
