IN REPLY REFER TO

SWLED-PP

Mr. Lester Rogers, Director
 Division of Radiological and
 Environmental Protection
 U.S. Atomic Energy Commission
 Washington, D. C. 20545

Dear Mr. Rogers:

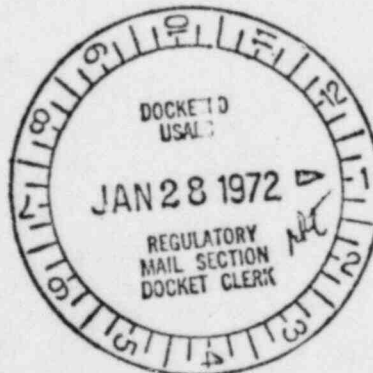

The supplement to the Arkansas Nuclear One Unit 1 Environmental Report inclosed with your letter to the Chief of Engineers, dated 9 November 1971, has been referred to me for action. My comments are as follows:

a. Page 10, last paragraph. This paragraph implies that the Corps of Engineers stocks the lakes and streams with fish. It should be rewritten to state that stocking of the lakes and streams is accomplished by the U.S. Fish and Wildlife Service and the Arkansas Game and Fish Commission.

b. The report should include a discussion pertaining to fog caused by the heated discharge and its potential effect on navigation and pleasure boating.

I appreciate the opportunity to review the report and hope that these comments will assist in preparing the Environmental Impact Statement for this proposal.

Sincerely yours,

William C. Burns
 WILLIAM C. BURNS
 Colonel, Corps of Engineers
 District Engineer
