(Prairie Island Nuclear Generating Plant, Unit Nos. 1 and 2)  
Docket Nos. 50-282 and 50-306  
(Spent Fuel Pool Modification)

---

Dear Mr. Charnoff:

This will confirm today's telephone conversation. The State of Minnesota filed contentions on April 24, 1980, these were not received by NRC's Docketing and Service Branch nor by OELD, nor do they have a certificate of service attached. I am sending them to be docketed today.

The Licensing Board Chairman called to inform me that he contemplated setting a prehearing conference in St. Paul at the end of July. We will be prepared to discuss a hearing schedule and the State's contentions at that time.

Sincerely,

In setting forth the bases for its contentions the State of Minnesota does not intend to limit in any way its right to present additional evidence and argument in support of its contentions at an evidentiary hearing on this matter. The purpose of this document is merely to summarize with reasonable specificity the bases for the contentions as required by 10 C.F.R. Section 2.714(b).

As these contentions are in part based upon documents which may be superseded, modified, or supplemented before or during a hearing on this matter, the State of Minnesota reserves the right to modify, amend, or supplement its contentions.
