Federal Register Notice

NUCLEAR REGULATORY COMMISSION  
ADVISORY COMMITTEE ON REACTOR SAFEGUARDS  
SUBCOMMITTEE ON SAFEGUARDS AND SECURITY

Notice of Meeting

The ACRS Subcommittee on Safeguards and Security will hold a meeting on June 26, 1980 in Room 1167, 1717 H Street, NW, Washington, DC 20555. Notice of this meeting was published May 15, 1980.

In accordance with the procedures outlined in the Federal Register on October 1, 1979, (44 FR 56408), oral or written statements may be presented by members of the public, recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Subcommittee, its consultants, and Staff. Persons desiring to make oral statements should notify the Designated Federal Employee as far in advance as practicable so that appropriate arrangements can be made to allow the necessary time during the meeting for such statements.

The agenda for subject meeting shall be as follows:

Thursday, June 26, 1980

8:30 a.m. until the conclusion of business.

The Subcommittee may meet in Executive Session, with any of its consultants who may be present, to explore and exchange their preliminary opinions regarding matters which should be considered during the meeting.

At the conclusion of the Executive Session, the Subcommittee will hear presentations by and hold discussions with representatives of the NRC Staff, their consultants and other interested persons regarding pertinent portions of the NRC research program for the ACRS annual reports to NRC and Congress, recently completed NRC studies relating to reactor plant design to reduce vulnerability to sabotage, code development related to spent fuel storage pool consequence estimates from sabotage, and recent events relating to plant security.

*DUP*  
8006240327

The ACRS is required by Section 5 of the 1978 NRC Authorization Act to review the NRC research program and budget and to report the results of the review to Congress. In order to perform this review, the ACRS must be able to engage in frank discussions with members of the NRC Staff and such discussions would not be possible if held in public sessions. In addition, it may be necessary for the Subcommittee to hold one or more closed sessions for the purpose of exploring matters involving proprietary information regarding plant security. I have determined, therefore, in accordance with Subsection 10(d) of the Federal Advisory Committee Act (Public Law 92-463), that, should such sessions be required, it is necessary to close portions of this meeting to prevent frustration of the above stated aspect of the ACRS' statutory responsibilities and to protect proprietary information regarding plant security. See 5 U.S.C 552b(c)(9)(B) and 552b(c)(4).

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the cognizant Designated Federal Employee, Mr. Richard K. Major (telephone 202/634-1414) between 8:15 a.m. and 5:00 p.m., EDT.

Date

June 5, 1980

John C. Hoyle  
Advisory Committee  
Management Officer
