

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

JUN 13 1980

Docket Nos.: 50-354/355

Mr. R. L. Mittl
General Manager - Projects
Public Service Electric and Gas Company
80 Park Place, Room 816 MP
Newark, New Jersey 07101

Dear Mr. Mittl:

SUBJECT: REORGANIZATION OF THE OFFICE OF NUCLEAR REACTOR REGULATION

Effective April 28, 1980, the Office of Nuclear Reactor Regulation was reorganized. A necessary period of transition from the old responsibilities and interfaces to the new is being made with a minimum of disruption to ongoing activities.

The organizational structure, including supervisory and management assignments to the branch chief level is shown in the Enclosure. The management of all licensing matters with respect to your facility has been assigned to Mr. H. Rood. He may be contacted by telephone at (301) 492-8544. The Acting Branch Chief is A. Schwencer. All considerations for your facility with regard to licensing activities should be made through your assigned management representatives.

If, during the course of our review of licensing matters related to your plan, you believe there is a need to appeal a staff position, this need should be brought to the staff's attention as early as possible so that an appropriate appeals process can be identified on a timely basis. A written request is not necessary and all such requests should be initiated through the assigned staff project manager. This procedure is an informal one, designed to allow opportunity to discuss areas of disagreement in the case review at higher levels of management in both the staff and your organization.

Sincerely,

A handwritten signature in cursive script that reads "Robert L. Tedesco".

Robert L. Tedesco, Assistant Director
for Licensing
Office of Nuclear Reactor Regulation
